

Urgent – Product Recall
Hamilton Beach
Classic Chrome 2-Slice Toaster

Hamilton Beach Item Numbers:	American Hotel Item #
22600 & 22602 Serial Codes DXXXXBI	M4J22600

Dec 20, 2011

To Our Valued Customers:

We have been informed by Hamilton Beach that they are initiating a voluntary recall of the toaster listed above. According to our records, you may have been shipped the recalled product. **Some of these toasters were sent to consumers as replacements for model 22600 toasters recalled in June 2011.**

When the toasters are first plugged into the outlets, the heating element can be energized although the toaster lifter is in the up or off position, which can pose a fire hazard if the toaster is near flammable items.

If your toaster is recalled, immediately stop using it. When you receive your replacement toaster in about 2 weeks, you will be asked to return the plug from the recalled toaster in a prepaid envelope. The removal of the plug is to prevent the recalled toaster from being used. Please safely dispose of it and do not sell it or give it away. We have asked and are being told that Hamilton Beach is currently not offering refunds, but they claim the new replacement toasters have a different chassis than the recalled toasters.

To determine whether your toaster is subject to this recall go to:
<http://www.hamiltonbeach.com/recall-info/recall-info.php> . If you prefer, US and Canada residents may call Hamilton Beach toll free at 1.800.576-6600 at any time to determine whether your toaster is part of the recall. If so, you will receive instructions on how to participate in the recall.

If you have additional questions, please feel free to contact your American Hotel Register Customer Care Representative at 1-800-323-5686. Thank you.

Very truly yours,

American Hotel Register Company

Important Safety Recall

Hamilton Beach Brands Announce Recall of Model 22602 Toasters

US Consumers
Check and register online here

In cooperation with the U.S. Consumer Product Safety Commission (CPSC), Hamilton Beach Brands is voluntarily recalling about 14,000 model 22602 toasters. When the toasters are first plugged into the outlets, the heating element can be energized although the toaster lifter is in the up or off position, which can pose a fire hazard if the toaster is near flammable items.

The Hamilton Beach recall involves model 22602 toasters, with series codes beginning with the letter D, in the format of DXXXXBI, where XXXX is a four-digit number. The model number and series code are printed on the bottom of the toaster. The toaster has a chromed steel exterior, a front control panel with a rotary toast shade selector and function buttons arranged in an arc, a front removable crumb tray and Hamilton Beach printed across the front of the toaster.

Model 22602

The toasters were sold by various retailers nationwide from August 2011 through November 2011 for between \$19 and \$34.

If your toaster is recalled, immediately stop using it. When you receive your replacement toaster in about 2 weeks, you will be asked to return the plug from the recalled toaster in a prepaid envelope accompanying the replacement toaster. Safely dispose of the recalled toaster. Do not sell it or give it away.

To determine whether your toaster is subject to this recall, **check and register here online**. If you prefer, in the US call Hamilton Beach toll free at **1.800.576.6600** anytime for instructions on whether your toaster is part of the recall and, if so, how to participate in the recall.
